**My father-in-law had AMD and could no longer do what he loved. I didn't know back then, but AMD can progress to a more advanced form of disease called GA.**

– Henry Winkler

AMD=age-related macular degeneration;  
GA=geographic atrophy.

If you have AMD and notice vision changes, talk to your eye doctor today.

**GA Won't Wait™**

### **Have you noticed any of these symptoms?**

- Difficulty seeing in the dark
- Straight lines appear wavy
- Blurry or missing spots in the center of vision

**They could be a warning sign that your AMD is progressing to GA**

**I encourage you to talk to your eye doctor about any symptoms or vision changes you notice, because GA won't wait...and neither should you.**

– Henry Winkler
